***A Message from Mayor Annette Iafallo – Warsaw Street Bridge
Temporary Closure***

After consulting with Public Works Commissioner Anthony DeSantis and Public Safety Director John Wolf, we've made a necessary decision to close the Warsaw Street Bridge to all pedestrian and vehicle traffic starting at 8:00am on Wednesday, December 16 and until further notice.

The bridge is very old and in a significant state of disrepair. It is necessary to close the structure to ensure public safety and allow our Public Works Department to conduct a thorough evaluation to determine whether the bridge is repairable or needs to be replaced.

Please adjust your travel plans in this area accordingly. Additional updates will be provided once we learn more about our options for safely rectifying this situation.

Thank you. And as always, please stay safe.

Annette
